INDUSTRIAL TAPES

BOPP SELF ADHESIVE TAPE

AVAILABLE SIZES-12MM,24MM,36MM,48MM AND 72 MM
MICRON-38,40,42, AND 50
COLOUR-BROWN AND TRANSPARENT

FEATURES

- *BOPP tapes are extensively used for sealing and securing packages in industries such as e-commerce, logistics, food and beverage, pharmaceuticals, and manufacturing.
- *BOPP tapes are the preferred choice for sealing corrugated cardboard boxes and cartons.
- *BOPP tapes are used in the automotive sector for various applications including wire harnessing, surface protection, and interior trim assembly

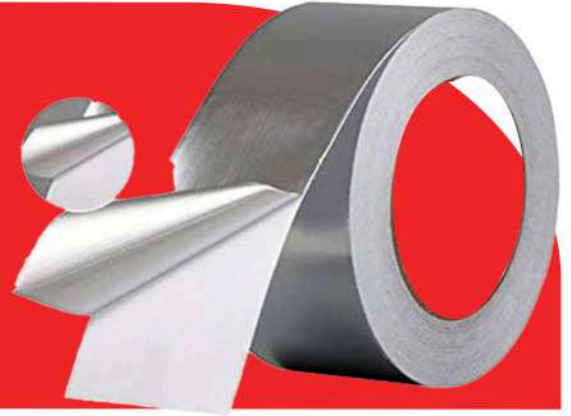

ALUMINIUM FOIL TAPE

AVAILABLE SIZES-1 INCH TO 10 INCH
MICRON-50,80,150

FEATURES

- *Used for HVAC (Heating, Ventilation, and Air Conditioning)
- *Used for Construction and Building Maintenance
- *Used in Electrical Industry

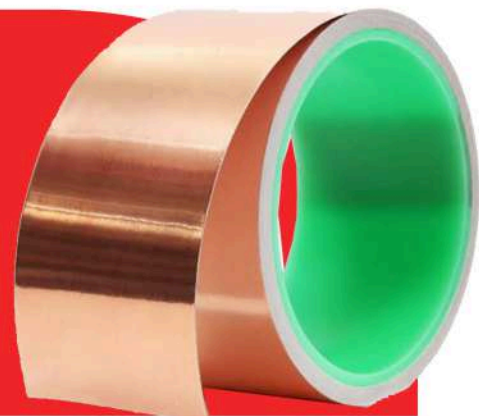

COPPER CONDUCTIVE FOIL TAPE

AVAILABLE SIZES-6MM TO 500MM
MICRON-50 AND 80 MICRON
MTRS-25MTRS ROLL

FEATURES

- *Copper conductive tape is highly conductive, allowing it to effectively carry electrical currents and provide reliable electrical connections.
- *Copper conductive tape typically exhibits good temperature resistance, allowing it to maintain its electrical conductivity and adhesive properties over a wide temperature range.

DOUBLE SIDED TISSUE TAPE

AVAILABLE SIZES-6MM TO 500MM
MICRON-60,70,90,100 AND 160
GRADE-HOTMELT AND SOLVENT
MTRS-20 MTRS TO 150 MTRS
BRAND-WONDER AND 3M

FEATURES

- *Used in surgical industries for PPE kits manufacturing.
- *Double-sided tissue tape is great for mounting posters, signs, and lightweight decorations on walls, windows, or other surfaces.
- *Double-sided tissue tape can be used in automotive applications for attaching emblems, moldings, or interior trim pieces.

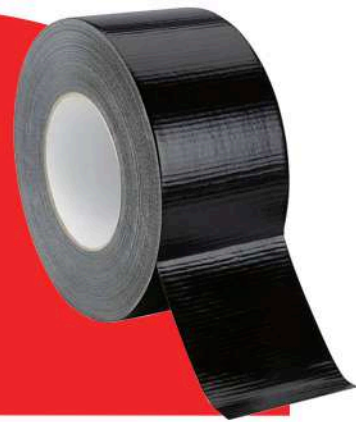

DUCT TAPE

AVAILABLE SIZES:1 INCH TO 8 INCH
MICRON-160 MICRON AND 200 MICRON
COLOUR AVAILABILITY-BLACK AND GREY
MTRS -20 MTRS AND 40 MTRS

FEATURES

- *Used in transformer manufacturing industries.
- *Used for heavy equipments packaging purposes and for many other purposes.

FLOOR MARKING TAPE

AVAILABLE SIZES:1 INCH TO 6 INCH
MICRON:HIGH ADHESIVE
MTRS-22 MTRS

FEATURES

- *One of the primary uses of floor marking tape is to enhance safety in industrial, commercial, and public spaces.

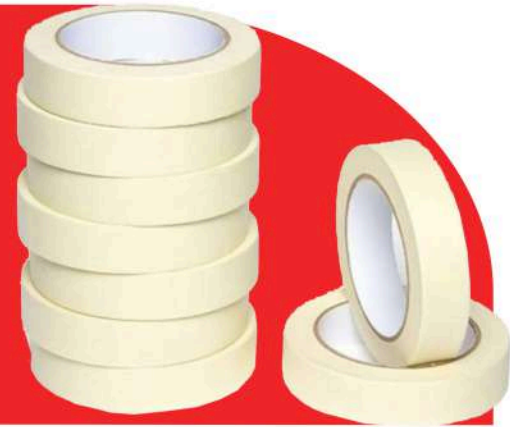

MASKING TAPE

AVAIABLE SIZES:12MM TO 96 MM
MTRS-15,20,40,AND 100MTRS
MICRON:220
BRAND-ABRO AND ATTACHE

FEATURES

*Masking tape is commonly used in painting projects to create clean lines and protect surfaces that should not be painted.

VHB TAPE

AVAILABLE SIZES-10 MM TO 300MM
THICKNESS-1.2MM,2MM,AND 4 MM
BRAND-3M AND WONDER

FEATURES

*VHB tape is used in automotive manufacturing for bonding exterior trim, emblems, nameplates, and mouldings to vehicle bodies.
*In the construction industry, VHB tape is utilized for bonding architectural panels, cladding systems, curtain walls, and structural glazing elements.

DOUBLE SIDED FOAM TAPE

AVAIABLE SIZES-24MM TO 300MM

FEATURES

*Double-sided foam tape is frequently used in the signage and display industry for mounting signs, banners, posters, and display panels to walls, windows, and other surfaces.
*Foam tape is used for mounting picture frames, mirrors, and other wall décor items

GREEN POLYESTER TAPE

AVAILABLE SIZES-20MM TO 1200MM
MICRON-150 & 200

FEATURES

- *Green polyester tape is commonly used in the powder coating and anodizing processes to mask off areas that need to be protected from coating or treatment.
- *Green polyester tape is used for splicing and tabbing applications in manufacturing processes involving paper, film, and other substrates.
- *In electronics manufacturing, green polyester tape is used for masking off sensitive areas on printed circuit boards (PCBs) during soldering, conformal coating, or wave soldering processes.

FILAMENT TAPE

Available sizes:12mm to100mm
Micron:38to43

FEATURES

- *Stronger than traditional adhesive tapes.
- *Split- and crack-resistant backing for integrity.
- *Synthetic rubber adhesive for a long-lasting bond

PINK RAYON TAPE

Available sizes: 12mm,18mm,24mm,48mm,60mm
Micron:230,260

FEATURES

- *Easy to tear and no leaves no residue on removal.
- *Good tensile strength.
- *Higher flexibility.

PACKAGING MATERIALS

AIR BUBBLE ROLL

Sizes available - 1000MM AND 1500MM
Meters - 100
Gsm - 40 GSM TO 100 GSM
Gauge - 180 GAUGE TO 400 GAUGE

FEATURES

- *One of the primary uses of air bubble rolls is to protect fragile items during shipping and transportation.
- *Businesses that sell fragile products online or in retail stores often use bubble wrap for packaging.
- *Bubble wrap can also be used for thermal packaging, particularly in the shipping of perishable goods or pharmaceuticals.

EPE FOAM ROLL

Size-1500mm
Thickness-2 mm to 30mm

FEATURES

- * EPE (Expanded Polyethylene) foam rolls are widely used for packaging and cushioning delicate items during transit.
- * EPE foam rolls are commonly used as protective padding in various settings.

STRETCH FILM

Grades available-manual grade and machine grade
Manual grade-23 micron
Sizes available-2 inch to 40 inch
Machine grade-29 micron
Size available-10 inch to 40 inch

FEATURES

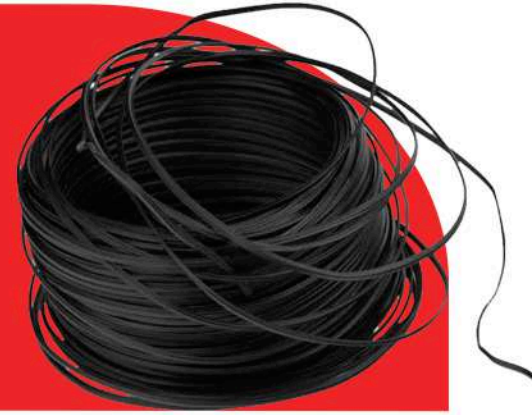

- *Stretch film is used to protect individual items or groups of items from dust, moisture, and other environmental factors.
- *Stretch film can serve as a deterrent against tampering and theft by providing a seal around packages and pallets.
- * One of the primary uses of stretch film is for pallet wrapping in warehouses, distribution centers, and manufacturing facilities.

TWIST WIRE

THICKNESS-0.4MM
COLOUR-BLACK AND WHITE
MTRS-100,150,1000 AND 2000
COMPANY USAGE-AUTOMOTIVE AND PHARMA

ZIP LOCK BAGS

AVAILABLE SIZE- 3 X 4 TO 12 X 12
MICRON-51 MICRON
BRAND-SVP BRAND AND MULTI BRAND

FEATURES

- * Zip lock bags are utilized in warehouses, distribution centres, and manufacturing facilities for inventory management and labelling.
- *In manufacturing and assembly operations, zip lock bags are often used to organize and store small parts,components, and fasteners

CORRUGATED ROLLS

Size-50 INCH
Thickness-2 ply

FEATURES

- *Corrugated rolls are commonly used to wrap fragile items such as glassware, ceramics, electronics, and artwork.
- * Corrugated rolls are ideal for wrapping large or irregularly shaped items that may not fit into standard-sized boxes.
